Bergholt

Bergholt is set in the time period of 1950s/1960s. BR Green Era 5.

The layout comprises a double track main line with a single track branch running to the upper level of the layout. Bergholt features a station, goods yard and private siding to a small brewery all set in an urban environment. Behind the backscene are long storage sidings.

All track is Peco code 80.

Uncoupling is achieved by the use of Seep magnetic uncouplers

Layout details for exhibition managers are given on the next page.
