

Land of the Zephyr

— somewhere on the Burlington Road.

Qland uses 2 board baseboards each 1550 long * 999 mm wide. The baseboards are sized to fit in a medium sized estate car. Electrically it is powered for DCC operation. The outer & inner (upper) loops can be operated independently of each other.

The layout is located somewhere on the CB&Q network. The time frame icoveres the CBQ,BN & BNSF timeframe.

Track Plan – Anyrail.
